I think we're going to have to scrap tabs for the alphabetical list

cstevens | Jun 24, 2015 2:38 pm

---

- 

and just build our own view

cstevens | Jun 24, 2015 2:38 pm

---

- 

it won't scale down to mobile

cstevens | Jun 24, 2015 2:38 pm

---

- 

yes it will

ctriebwasser | Jun 24, 2015 2:39 pm

- 

well .. it adds in arrows, which aren't a good UX

cstevens | Jun 24, 2015 2:39 pm

---

-

thats what <@U04B3F3S3> wanted

ctriebwasser | Jun 24, 2015 2:39 pm

---

oh really?

cstevens | Jun 24, 2015 2:39 pm

---

that is the google standard

ctriebwasser | Jun 24, 2015 2:39 pm

---

standard for tabs yes

cstevens | Jun 24, 2015 2:39 pm

---

for mobile too

ctriebwasser | Jun 24, 2015 2:39 pm

ctriebwasser | Jun 24, 2015 2:41 pm

---

Not sure what's telling me

cstevens | Jun 24, 2015 2:41 pm

---

what thats\*

cstevens | Jun 24, 2015 2:41 pm

---

go to googles material design site -&gt; componente -&gt; tabs

ctriebwasser | Jun 24, 2015 2:41 pm

---

that is an example of mobile tabs from their documentation

ctriebwasser | Jun 24, 2015 2:41 pm

---

yes I understand that, however this is a LONG list, and the tab mobile version is to add arrows on the left and right hand side, which is a bad user experience for a list longer then like 6 things <@U04B3F3S3>

cstevens | Jun 24, 2015 2:42 pm

---

we going stick the whole alphabet in tabs?

stringfield | Jun 24, 2015 2:43 pm

---

this is how it is right now, using tabs

cstevens | Jun 24, 2015 2:43 pm

<@U06FKNYD9>: thats how google does it tho

ctriebwasser | Jun 24, 2015 2:43 pm

---

.....

cstevens | Jun 24, 2015 2:43 pm

---

for tabs

cstevens | Jun 24, 2015 2:43 pm

---

yes

cstevens | Jun 24, 2015 2:43 pm

---

im saying lets not use tabs

cstevens | Jun 24, 2015 2:43 pm

---

wait when you say arrows do you mean scroll arrows? because if so then you are doing it wrong

ctriebwasser | Jun 24, 2015 2:44 pm

---

multiple tabs like that on mobile is a swipe feature

ctriebwasser | Jun 24, 2015 2:44 pm

cstevens | Jun 24, 2015 2:44 pm

---

ours is on the left, it doesnt scale currently, on the right is the recommendation

cstevens | Jun 24, 2015 2:44 pm

---

im saying that given the use case, we should not use tabs

cstevens | Jun 24, 2015 2:45 pm

---

- 

i dont understand why we shouldnt

ctriebwasser | Jun 24, 2015 2:45 pm

---

- 

that is how google does it

ctriebwasser | Jun 24, 2015 2:45 pm

---

- 

what is wrong with having arrows

ctriebwasser | Jun 24, 2015 2:45 pm

---

- 

because you would have to press left 5 times to get to z

cstevens | Jun 24, 2015 2:45 pm

---

- 

or right

cstevens | Jun 24, 2015 2:45 pm

---

- 

no you can swipe

ctriebwasser | Jun 24, 2015 2:45 pm

---

- 

no you cant

cstevens | Jun 24, 2015 2:45 pm

---

- 

i just did

cstevens | Jun 24, 2015 2:45 pm

---

- 

you dont have to use the arrow

ctriebwasser | Jun 24, 2015 2:45 pm

---

- 

i pulled the website up on my phone

cstevens | Jun 24, 2015 2:46 pm

---

doesnt work

cstevens | Jun 24, 2015 2:46 pm

---

vik: i will commit the docker compose update for mysql, watch for conflicts

svemir | Jun 24, 2015 2:46 pm

---

either way, <@U04B3F3S3> what are you thoughts on this?

---

<@U06FKNYD9>: i think its fine

ctriebwasser | Jun 24, 2015 2:47 pm

---

- 

we can probs add a swipe feature

ctriebwasser | Jun 24, 2015 2:48 pm

---

- 

look at the demos for swipe on the material angular page

ctriebwasser | Jun 24, 2015 2:48 pm

---

- 

charles says we will use a select type thing

ctriebwasser | Jun 24, 2015 2:51 pm

---

- 

<@U06FKNYD9>: <@U053GDNLC> <@U04B3F3S3> <@U04AH9GT0> let's put changes to the letters in the backlog

felicity | Jun 24, 2015 2:54 pm

---

- 

we can put it not working on mobile in as a bug

felicity | Jun 24, 2015 2:54 pm

---

- 

i don't want to make changes there

felicity | Jun 24, 2015 2:54 pm

---

- 

<@U04AGSW7A>: but we have no mobile solution at all right now

stringfield | Jun 24, 2015 2:54 pm

---

- 

yeah and it totally changes the way it's built

cstevens | Jun 24, 2015 2:54 pm

---

- 

o, ok

stringfield | Jun 24, 2015 2:54 pm

---

- 

yeah, agreed

stringfield | Jun 24, 2015 2:54 pm

---

•

can it wait until the meeting at 5 or do we need to decide this now?

felicity | Jun 24, 2015 2:54 pm

---

•

<@U04AH9GT0>: no you were right, we have no mobile solution

cstevens | Jun 24, 2015 2:55 pm

---

•

<@U06FKNYD9>: i just spoke with charles - he wants to do a vertical scroll - i think like a picker type thing

ctriebwasser | Jun 24, 2015 2:55 pm

---

•

haha "several people are typing"

felicity | Jun 24, 2015 2:55 pm

---

•

can we just stack the letters and keep it simple for now?

stringfield | Jun 24, 2015 2:55 pm

---

•

We are working through mobile design case right now...

chilliard | Jun 24, 2015 2:55 pm

---

•

<@U04AH9GT0>: <@U06FKNYD9> your thoughts on vertical scroll?

felicity | Jun 24, 2015 2:55 pm

---

•

but letters has a very nice joke in the code right now, i am very proud of that one :disappointed:

svemir | Jun 24, 2015 2:55 pm

---

•

right but back log it for now

stringfield | Jun 24, 2015 2:55 pm

---

•

the only reason im jumping to mobile is that it totally changes how its built, you can't do vertical with tabs, you cant stack them, so i need to know so i can rebuild

cstevens | Jun 24, 2015 2:56 pm

•

and add just do some basic stacking for now

stringfield | Jun 24, 2015 2:56 pm

---

•

use basic stacking right now...and the focus should be on desktop we have time to optimize for mobile

chilliard | Jun 24, 2015 2:57 pm

---

•

its like a typing war under this box

svemir | Jun 24, 2015 2:57 pm

•

<@U04B3F3S3>: is that what you had in mind?

ctriebwasser | Jun 24, 2015 2:57 pm

---

•

ok, ill just build it out and we can come back to it

cstevens | Jun 24, 2015 2:57 pm

---

•

i will add it to the backlog <@U06FKNYD9>

felicity | Jun 24, 2015 2:58 pm

kk

cstevens | Jun 24, 2015 2:58 pm

---

•

thank god for <@U04AGSW7A>

stringfield | Jun 24, 2015 2:59 pm
